HIDALGO COUNTY, TEXAS

* * *

Introduction
by
Walter N. White
Senior Hydraulic Engineer
United States Department of the Interior
Geological Survey

This pamphlet contains records of wells in Hidalgo County, Texas, together with tables of well logs, well water analyses, and a map which shows all the wells described, each well having a number on the map corresponding to the number assigned to it in the well tables.

The records were obtained in the course of an investigation which was undertaken as part of a statewide study of the underground water resources of Texas. The investigation was made by the State Board of Water Engineers, in cooperation with the Geological Survey of the United States Department of the Interior and the Engineering Experiment Station of the Agricultural and Mechanical College of Texas. The field work was carried out by J. T. Lonsdale, of the Department of Geology of the A. & M. College, and S. S. Nye, Assistant Geologist in the Geological Survey. The analyses were made in the laboratory of the Geological Survey at Washington by E. W. Lohr, Assistant Chemist.

The well records serve as a guide to land owners and well drillers who may need information regarding wells and pumping plants, the depth to ground water in different parts of the county and the quantity and quality of water yielded by wells. They afford a basis for a more intensive investigation which may be made later on.

These records were typed, assembled, and mimeographed by employees of Works Progress Administration Project 9864, which is sponsored by the Texas Board of Water Engineers in cooperation with the Geological Survey.

Records of wells in Hidalgo County, Texas

(All wells are drilled or bored unless otherwise noted in "Remarks" column.)

No.	Location	Owner	Driller	Date com- ple- ted	Depth of well (ft.)	Diam- eter of well (in.)	Principal water- bearing bed	
							Depth to top of bed (ft.)	Thick- ness (ft.)
1	8.5 miles northeast of La Reforma	A. C. Jones, Quatro Milpas well	--	--	150	4 $\frac{1}{2}$	--	--

- EXPLANATION -

- WELL WITH HAND PUMP, BUCKET OR BAILER
- WELL WITH WINDMILL OR SMALL POWER PUMP
- WELL WITH PUMPING PLANT- 5 HORSE POWER OR LARGER
- ◇ WELL DRILLED TO TEST FOR OIL OR GAS
- ◊ UNUSED WELL
- FLOWING WELL
- HIGHWAY
- - - COUNTY ROAD
