

**EXPLANATION**

- -490  
Well used for control
- Number indicates altitude of base of upper part of the Jasper aquifer
- 500 —  
Structure contour
- Shows approximate altitude of base of upper part of the Jasper aquifer
- Contour interval 250 feet
- Datum is mean sea level

Area where slightly saline water is present in the upper part of the Jasper aquifer

Outcrop of the upper part of the Jasper aquifer

Figure 9  
 Approximate Altitude of the Base of the  
 Upper Part of the Jasper Aquifer and  
 Areas Where Slightly Saline Water is Present in the Aquifer
