

EXPLANATION

- Source of Water
- Edwards and associated Limestones
 - Antlers Formation
 - Edwards and associated Limestones and Antlers Formation
 - Lower Cretaceous (Glen Rose Formation)
 - △ Cretaceous undifferentiated
 - ▲ Undesignated
- Sampled Well
- 30 Sulfate concentration
 - 20 Chloride concentration
 - 10 Nitrate concentration
 - 612 Dissolved solids concentration
 - No quantity available
- Chemical concentrations are in milligrams per liter
